

JOBIN JOSE

FULL STACK DEVELOPER

Github: <https://github.com/jobin87>.

Linkedin: <https://www.linkedin.com/in/jobin-jose-1aa5b8316>.

Email: jose.jobiin@gmail.com.

Phone: 7034760724.

KEY SKILLS:

MERN Stack

- MONGODB
- EXPRESS JS
- REACT JS
- NODE JS

Programming Languages

- Typescript
- Javascript
- Java

Supporting Skills

- MUI-Material UI
- Redux
- Git
- Swagger
- Api Integration
- Netlify
- Render

Currently Learning

- SQL
- DSA

Languages

- English
- Malayalam
- German(A2)
- Tamil

Education:

B.E. Computer Science and Engineering.
Excel Engineering College,
Namakkal, 637001.
(Anna University)
2020 - 2024
CGPA: 7.27.

Higher Secondary:

Govt Higher Secondary
School, Karimanthode,
689699.
Marks: 69%

OBJECTIVE:

Recent graduate with a strong foundation in web development, gained through projects and continuous learning. Currently expanding my knowledge with new technologies. Skilled in creating visually appealing designs and building functional backend systems, with a strong understanding of data handling, server-side functionality, and writing clean, efficient code that brings ideas to life.

PROJECT:

Full-Stack Web Application:- Hospital Management System.

- Developed a **fully functional Hospital Management System (HMS)** using **MERN stack (MongoDB, Express.js, React.js, Node.js)**.
- Designed and implemented both **frontend and backend**, ensuring smooth data flow and user-friendly UI.
- Integrated **Authentication, Role-based access control**, and **Real-time updates** for appointments and reports.
- Used **Express.js and Node.js** for backend API development, handling patient records, doctor schedules, and pharmacy management.
- Connected frontend and backend using **RESTful APIs** and managed state efficiently with **Redux**.
- Implemented **secure database operations** with **MongoDB**, ensuring efficient storage and retrieval of hospital data.

ACADEMIC PROJECTS:

- **3rd year Mini Project(Easy-buy)** A web application that is created with an idea to access all the stores and markets to buy things from the provided nearby locations.
- **4th year Main project(E-learning)** A web application that is created to improve the academic performance of students from class (vii) to class (x).

INTERNSHIPS:

ExLife Solutions, Trivandrum, Kerala, India (3 Months)

- Learned backend fundamentals, focusing on frontend-backend integration.
- Gained hands-on experience with Node.js, Express.js, and API development.

Chapz (Latest Internship)

- Worked with the Minimal UI Kit, analyzing its components and unwiring functions.
- Enhanced my understanding of full-stack development by integrating backend logic with a structured UI.
- Improved frontend and backend interactions, ensuring seamless functionality within the UI framework.

PERSONAL DETAILS:

Full Name: Jobin Jose.

DOB: 24-07-2001.

Address: Palanilkunnathil House , Thannithode Po, 689699,konni,
Pathanamthitta,Kerala.
